

MOPARLEO'S PARTS

FRONT DOOR HINGE

REBUILDING PROCEDURE

A/B/E-Body Door hinge restoration service. 1967-74 A-body. 1962-65, 1966-70, 1971-78 B-body, 1970-74 E-body Your undamaged, unmodified hinge cores are completely reconditioned to like new function. No Taiwan or import parts used. EVER. All parts used are newly manufactured in the USA. All wearing parts are replaced as applicable for each application. Hinge cores inspected for damage, prior repair attempts and excessive wear before rebuilding. All cores are bead blasted, door check pins and wave washers removed and replaced where applicable. Oil-ite bronze bushings replaced and standard sized pins replaced. Main pivot holes drilled and reamed to fit custom oversized pivot pins. Hinges painted with automotive grade primer. Pre-lubed and assembled with new main springs. All threaded holes chased with a chasing die. Ready to paint body color and install. Set of both front doors only. Hinges are also sealed in air/water tight H.D. plastic packaging.

Please mask all rollers before painting to prevent paint from gumming up the lubrication area. Use dry lubes only.

The service is for both front door hinges, top & bottom.

We only do Mopar door hinges.

Over 25 years experience, thousands of satisfied customers. We do them like we were putting them on our personal car. Please keep us in mind for all your classic Mopar door hinge rebuilding needs.

We want your business.

Discounts for Restoration/body shops and Mopar car clubs.
